About Us

My passion for plants and playing with flowers started when I was in elementary school. From seed to flower to arranging beautiful bouquets, I love and do every part of the process. We grow many of our own flowers and also use locally grown!

Our vibrant flower collections are customized for your event needs!

Our Services

We provide a full-service experience for whatever your needs may be. Set-up of your event, design consulting, hair flowers, pinning on boutineers, flowergirl baskets, petals and delivery.
